WORK EXPERIENCE

Ernst & Young, Tysons, Virginia February 2019 – February 2020
Consultant – Government and Public Sector

- Government consultant with the EY Personnel Management Office (PMO) team at the Defense Health Headquarters in Falls Church, Virginia. Part of a small team that served as a liaison between approximately 120 EY employees and various contacts within the Defense Health Program. Our tasks required clear and concise written communication to reflect our firm's professional dedication to delivering the best results to our clients.
- Designed a SharePoint site for a new EY contract within the Defense Health Program. This site is the main hub for all personnel resources within the project, namely team communications, file sharing, and staff information.
- Provided ongoing technical support as an administrator on the SharePoint site, helping EY and government employees with any logistical problems they might encounter.
- Improved the onboarding guide for new team members to be more streamlined and easier to follow. Coordinated all onboarding and offboarding processes for incoming and outgoing EY contractors.
- Authored and edited weekly/monthly slide decks and reports for upper management plus government clients.

C. R. Bard, Inc., Murray Hill, New Jersey May 2015 – August 2015
Summer Intern – Strategy and Business Development

- Summer Intern in Strategy and Business Development at corporate headquarters of a \$3.4 billion sales, \$14.5 billion market capitalization, publicly traded, global medical device manufacturer (NYSE: BCR). Recently acquired by Becton Dickinson.
- Assessed a publicly traded potential target in the vascular access field with +\$300 million in revenues. Written analysis included detailed product overviews, historical financial data, fully diluted share analysis, market opportunity assessment and a preliminary discounted cash flow valuation analysis.
- Wrote a written summary detailing medical device markets in East Asia. Analysis included descriptions of the political environment, overall economy, historical economic data, market opportunities, healthcare statistics and healthcare market attractiveness.

The LEGO Group, Bridgewater, New Jersey June 2016 – January 2019
Brick Specialist

- Retail store experience: product sales, customer assistance, inventory management, product display construction, overseeing in store construction activities.

COMPUTER SKILLS

- Proficient in Microsoft Office (Excel, Word, PowerPoint, Outlook)
- Design Software: AutoCAD, Solidworks, Rhino
- Data Tools: MATLAB, SPSS (Statistical Tool), SQL
